

For Photographers – Moon Rise & Photographers’ Bulletin

Moon Rise: The next full moon is May 19, Monday. Between May 17 and 21 moon rise will be close to evening twilight and the tide will be near high at that time. A number of Landings photographers are going to be shooting the moon rise from Skidaway Island between sunset and midnight on those days. Traditional timed exposures, timed exposures with off camera strobes, HDR – any photographic image; the plan is to get a number of photographers out for a challenge shoot then see the results of others. A number of the pictures will be posted on the LAA web site the following week. Submit no more than two photos for inclusion to hunter_sav@comcast.net by May 26, the image should be no more than 450 pixels wide and 72-96 dpi. By submitting your image you merely license LAA to publish the small image on the LAA website, you retain all other rights.

Photographers’ Bulletin: A number of Landings photographers have an interest in creating a Landings organization to stimulate learning, exploration, and enjoyment through photography. The organization will probably be affiliated with either the Landings Art Association or Landlovers or both. If you would like to receive a Bulletin about activities, reporting progress and soliciting ideas on this matter, please send an e-mail to hunter_sav@comcast.net. (Your e-mail address will be used for no other purpose, all addresses will be undisclosed on bulletins, you may unsubscribe at any time – E-mail not be sent more frequent than weekly.)
